Set of three.

# Avenger Stands

## STANDARD BASE

### STANDARD BASE

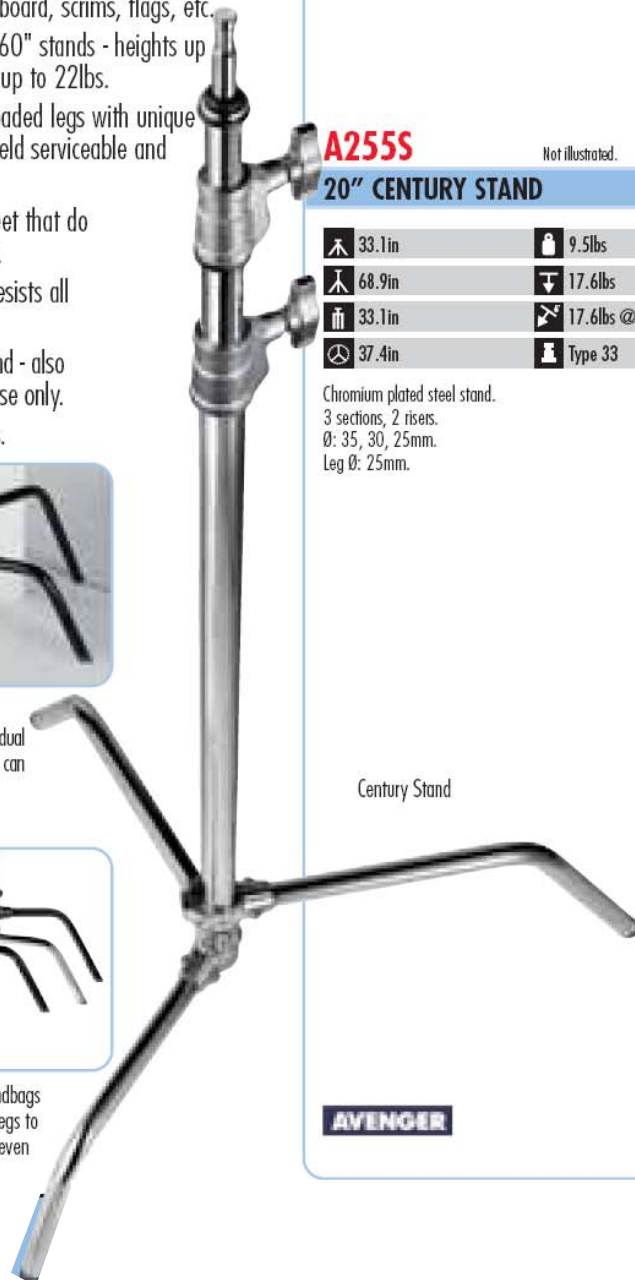

- The Avenger Century stand is unlike any other. Fitted with captive handles that do not vibrate free; utilizing a new lightweight steel making them up to 2.2lbs lighter but just as strong; triple chrome plating resistant to corrosion; collar castings that protect fingers; field serviceable parts; all these features make this stand the best on the market.
- Century Stands have thousands of uses. Coupled with a Grip Head (D200) and a Grip Arm (D520/D500), the stand can be used to boom lights, hold backgrounds, support reflectors, microphones, foam board, scrims, flags, etc.
- 20", 30", 40" and 60" stands - heights up to 190" with loads up to 22lbs.
- Fold away, spring loaded legs with unique mounts which are field serviceable and easy to replace.
- Deep inset plastic feet that do not come off in use.
- High quality finish resists all weather conditions.
- Detachable base stand - also available as turtle base only.
- Captive "T" handles.

The innovative design on the Century stand base allows individual legs to be set at any angle, and can be positioned in locations not possible for classic stands.

Important! Counterweight sandbags must always be used on the legs to ensure safe, stable operation even at full height extension.
