

# TeleScript Jr.

Professional Prompting Software

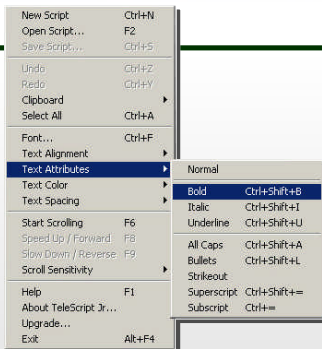

## Features At-a-Glance:

- 5-Minute learning curve
- Full-screen edit and prompt
- Famous Telescript stability
- Multiple control options
- Full Unicode support

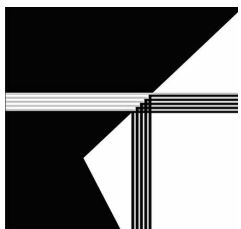

## Cost Effective

**TeleScript JR** delivers professional, broadcast-quality prompting at a fraction of the cost of equivalent products. No proprietary hardware is required, and it works with a selection of third-party control devices including the **Contour ShuttlePro** (*above*), **Griffin PowerMate** (*below*), and others.

## Simple and Intuitive Interface

All of the functions available in **TeleScript JR** are just a right-click away, with no cluttered or complicated toolbars and buttons to slow you down. Plus all of the commands have an associated keyboard shortcut -- a powerful feature for advanced users.
